How is it delivered and supported?

The course is delivered by your school, acting as our delivery partner, using a flexible model that fits your existing timetable. In addition to classroom-based learning, learners may take part in team-building exercises, practical tasks, and visits to public service organisations, gaining hands-on experience and valuable insight into the sector.

Throughout the course, learners receive regular guidance, feedback, and encouragement from their delivery team to help them stay on track, build confidence, and succeed.

We also encourage parents and carers to take an active interest in their child's progress, as support at home plays a vital role in learner success.

How much does it cost?
